

Assessments on jurisdiction

Please note:

- in some circumstances where an out-of-jurisdiction agency is acting on behalf of an in-jurisdiction agency, the actions of the out-of-jurisdiction agency may be deemed to be the actions of the in-jurisdiction agency. If such a possibility arises, please discuss with the agency specialist/s.
- while an agency may be in jurisdiction, the action complained of may be out of jurisdiction, or the complaint may be one in relation to which the discretion not to investigate may be exercised. Please see the relevant parts of the Work Practices Manual.
